ILLUMINATING HEARTS AND MINDS

## OUR MISSION

Lion Star Academy offers a loving environment and specialized learning for extraordinary students to discover their unique gifts.

## OUR VISION

Our vision is to combine innovative therapies, cutting edge technologies and holistic education to empower students in unlocking their greatest potential.

# CAPACITY.

**Lion Star Academy (LSA) has three funding initiatives: **Capacity**, Programs and Innovation. These strategic initiatives ensure that we are supporting our students, families and faculty in the most effective ways:**

LSA requires organizational resources to remain healthy and to thrive, while maintaining our primary focus on offering holistic development programming to students. Capacity allows us to fulfill our mission and build strategies to achieve our vision. Your generous support to Capacity enables LSA to maintain focus, measure internal effectiveness and impact, as well as develop long term strategic plans. The most vital component of Capacity are those associated with the human side of organizational execution.
